

# Integrated University Program Scholarship/Fellowship Support FOA

DE-FOA-0002265

Andrew Ford  
U.S. Department of Energy – Idaho  
Operations Office  
August 10, 2020

# Important Dates

- Release FOA: August 2020
- Initial Application Due Date: Anticipated to be Dec 2, 2020
- FOA will be open continuously through August 13, 2030
- After the initial application due date, reviews will be conducted annually for applications received no later than March 31

# Integrated University Program (IUP): Scholarships & Fellowships

- IUP was authorized by Congress in Section 313 of the Omnibus Appropriations Act of 2009.
- IUP works to attract qualified nuclear science and engineering students to the nuclear energy professions by providing undergraduate level scholarships and graduate level fellowships.
- To date, the Department of Energy's Office of Nuclear Energy (DOE-NE) has awarded more than \$50 million in support of 310 fellowships and 538 scholarships to 73 schools in 31 states.

# IUP Scholarships & Fellowships

- Graduate Fellowship: \$161,000 over three years, \$52K/year with an additional \$5,000 provided to offset the costs of a 10-week minimum internship required of all fellows.
- Undergraduate Scholarship: \$7,500 for one year. Scholarship recipients must reapply each year to be selected for any future scholarship awards.
- Up to \$5 million is expected to be available in any given fiscal year for scholarship and fellowship awards. Funding availability is dependent upon DOE-NE appropriations.

# University Funding Opportunity Announcement (FOA)

- Serves as a support mechanism for annual IUP Requests for Applications to student applicants.
- Establishes cooperative agreements between Institutions of Higher Education (IHEs) and DOE as an instrument to receive IUP funds to be administered to students.
- To date, NE has issued 87 cooperative agreements to IHEs, all of which are set to expire.
- This FOA provides an opportunity for U.S. IHEs to submit a new application to remain as an approved IUP institution and to administer award funds.

# University FOA Details (DE-FOA-0002265)

- DOE-NE anticipates awarding cooperative agreements under this FOA.
- Only one cooperative agreement award per U.S. IHE is necessary.
- U.S. IHEs awarded under this FOA will be recognized for up to 13 years; however, in no event will new scholarships/fellowships be awarded after year 10 of this FOA.

# University FOA Details

- Funding will not be provided to IHEs when they are selected as an approved institution.
- Funding will be incrementally added to IHE accounts via an amendment to the established agreement in the amount necessary to fund annual scholarship and fellowship awards for selected students that will attend the IHE.
- The number of awards to U.S. IHEs in any given fiscal year will depend on the actual number of eligible applicants.
- No funding will be provided to any U.S. IHE unless a student has received a DOE-NE scholarship or fellowship award and is accepted or currently enrolled at that U.S. IHE.
- The selection of students to receive scholarships and fellowships through the program will occur annually via a separate DOE-NE process.

# Eligibility

- Eligibility for award is restricted to U.S. IHEs with two-, four-year, and graduate programs of study in science and engineering disciplines related to nuclear energy.
- Minority institutions such as Historically Black Colleges and Universities and/or minority serving institutions are encouraged to apply.
- U.S. IHEs with cooperative programs which share coursework between two or more U.S. IHEs to meet the above requirements are also encouraged to apply.

# IHE Responsibilities

- Comply with terms and conditions of the awarded cooperative agreement.
- Promote the U.S. Department of Energy, Office of Nuclear Energy Integrated University Program Scholarship and Fellowship Support program at your school.
- Distribute scholarship/fellowship funds to enrolled students selected/identified by NE to receive scholarships/fellowships in accordance with program guidelines.
- Collect and timely submit information required for interim, annual, and final reports.
- Return any unused funds provided for each participating student(s) at completion of the school year for scholarships, or at completion of the period covered by fellowships, or as directed by DOE.
- Agree not to charge any indirect costs or charge a fee to administer the funds received. All funding is provided for the benefit of the student.

# Required Documents

- Applicants will apply at [neup.gov](https://neup.gov)
- SF 424 – Application for Federal Assistance
- Program Narrative File
  - Program Description
  - Faculty Description
- Certifications and Assurances
- Principal Investigator Curriculum Vitae
- SF-LLL Disclosure of Lobbying Activities
