

## Joanna Taylor

SBIR and TCF Lead, Innovative Nuclear Research Integration Office

Joanna Taylor provides support to the Department of Energy Office of Nuclear Energy (NE) competitively funded Small Business Innovation in Research (SBIR) program and the Office of Technology Transitions Technology Commercialization Fund (TCF).

Taylor has been with the Innovative Nuclear Research Integration Office (INR-IO) supporting these programs since 2023. She previously worked as an Environmental Program Manager for a small business in Idaho Falls, ID. Most recently, Taylor worked for the University of Idaho – Idaho Falls managing the Analytical Chemistry Laboratory and the Microscopy and Characterization Suite at the Center for Advanced Energy (CAES).

Taylor holds a Master of Science in environmental science and waste management, and a Bachelor of Science in biochemistry and chemistry.

If you'd like to learn more about SBIR or TCF programs, contact [Joanna Taylor](#) or visit the [NEUP website](#).
