

Nick M. Case

Operations Lead, Innovative Nuclear Research Integration Office, Idaho National Laboratory

Nick Case is the Operations Lead for the Innovative Nuclear Research Integration Office at Idaho National Laboratory. In his role, he manages the financial operations of the program on behalf of the Department of Energy, Office of Nuclear Energy (NE). Case is also the technical lead for Integrated Research Proposals, Consolidate Innovative Nuclear Research (CINR) Infrastructure, Infrastructure Revitalization, Reactor Sharing, GAIN/NE Vouchers, and iFOA, all of which are DOE-HQ solicitations. Case leads NEUP Awards Maintenance, which includes PICS:NE (quarterly reporting, new work package initiation, etc.), and maintains the NEUP Master Spreadsheet.

Case has been with the Integration Office since 2016 and holds a Bachelor of Business Administration in finance through Idaho State University and received a Master of Engineering in technology management through University of Idaho.
