

Cece Bell

Outreach and Communications Lead, Innovative Nuclear Research Integration Office

Cece Bell leads the outreach and communications for the Innovative Nuclear Research Integration Office (INR-IO) at Idaho National Laboratory (INL). The INR-IO manages the Nuclear Energy University Program (NEUP) under the Department of Energy's Office of Nuclear Energy (NE). In this role, she helps to advertise, announce, present, and inform colleges and universities about the programs that NEUP offers. Bell manages all promotional content including writing, designing, editing, and consulting on best practices for sharing the program's opportunities and its impact. Bell reports on the research being done through NEUP programs and ensures alignment with NE's expectations regarding branding, messaging, promoting, and awarding.

Within INL, Bell has had the opportunity to work supporting the Business Management directorate and National and Homeland Security. Before that, she worked externally in communications and project management.

Bell has a Master of Business Administration with a focus in project management. She received a Bachelor of Science in Communication.

If you'd like to learn more about communications and outreach, contact [Cece Bell](#) or visit the [NEUP website](#).
