

Megha Dubey

Peer Review Specialist, Innovative Nuclear Research Integration Office

Megha Dubey works as a Peer Review Specialist in the Innovative Research Integration Office (INR-IO) at Idaho National Laboratory. In this role, she leads the Phase II Continuation Consolidate Innovative Nuclear Research (CINR) program of the Department of Energy Office of Nuclear Energy. She also provides support for the Distinguished Early Career Program (DECP) and solicitation support in Small Business Innovative Research (SBIR) – Small Business Technology Transfer (STTR) programs.

Dubey has been with INR-IO since March 2023. Previously she worked as a Senior Research Associate for Materials and Characterization Suite (MaCS) at the Center of Advanced Energy Studies, supporting Boise State University. Dubey holds a Master of Science from the University of Pune, India. She also has research experience in the field of Materials Science working at the National Chemical Laboratory in Pune India, and Groupe de Physique des Matériaux, Université de Rouen in France.

If you'd like to learn more about Phase II Continuation CINR or DECP, contact [Megha Dubey](#) or visit the [NEUP website](#).
