

## Fellowships

---

The Office of Nuclear Energy's (NE) Integrated University Program (IUP) funds graduate fellowships as part of the U.S. Department of Energy's (DOE) ongoing commitment to educating the next generation of nuclear scientists and engineers.

Fellows receive up to \$155,000 over 3 years to help pay for their graduate studies and research. Fellows complete an internship as part of the award.

### Applicants must be:

- U.S. citizens or legal permanent residents
- Entering their first or second year of overall graduate study
- Enrolled in an IUP-accepted college or university
- Studying nuclear science or engineering, or a related field
- A student with a cumulative GPA of 3.5 or higher at both the undergraduate and graduate levels

### Applicants must provide:

- A Personal Career Goals essay identifying the applicant's long-term career goals and how those goals align to the DOE-NE mission
- A Proposed Graduate Research essay describing the research the student is interested in conducting during the course of the fellowship
- Three reference letters
- Official undergraduate and any graduate college transcripts

Since FY 2009, DOE has awarded 276 graduate fellowships to students from 48 U.S. universities and colleges.

**In FY 2019, students at the following 21 universities were awarded IUP Fellowships:**

Boise State University  
Brigham Young University  
Clemson University  
Florida State University  
Georgia Institute of Technology  
North Carolina State University  
Purdue University  
Rensselaer Polytechnic Institute  
Texas A&M University  
University of Alabama  
University of California, Berkeley

University of Michigan  
University of Missouri, Columbia  
University of Nevada, Las Vegas  
University of Nevada, Reno  
University of Pittsburgh  
University of South Carolina  
University of Tennessee at Knoxville  
University of Wisconsin-Madison  
Utah State University  
Vanderbilt University
